About Us

A clinically grounded healthcare training, assessment, and analytics platform that helps students and universities elevate standards, ensure measurable quality, and graduate practice-ready clinicians.

- MAP
- MEASURE
- IMPROVE CLINICAL LEARNING

Platform

Grounded in validated clinical case studies and OSCE-aligned training

Close skill gaps before patient contact

OSCE-aligned case generation

Ingest validated case studies, course content

Continuously improve outcomes

Socratic tutoring with guided clinical reasoning

Train through simulation & guided reasoning

Assess readiness in real-time

Exam-like competency-based testing

4 Modules

Together, Socratic's integrated modules generate validated case studies, deliver personalized tutoring, assess learners under exam-like conditions, and track competency data to validate real-world clinical readiness.
